

ALABAMA RIVERS EDUCATOR WORKSHOPS

Join us as we travel down rivers through time to encounter the rich human history and natural wonders that have defined Alabama. Along the way, we will **celebrate** an array of magnificent rivers filled with unique plants and animals, shaped over the ages by a remarkably diverse geology. Accept the **challenge** to restore and protect our rivers for their economic, cultural, and ecological benefits, but most of all **because it is the right thing to do.**

Text adapted from the back cover of *Alabama Rivers, A Celebration & Challenge* by Dr. Bill Deutsch
